## EDUCATION

**Harvard University, John F. Kennedy School of Government**  
*Master in Public Policy, International and Global Affairs.*

Cambridge, MA  
May 2024

**Harvard University, Graduate School of Design**  
*Master in Urban Planning, International and Comparative planning.*

Cambridge, MA  
May 2024

**Northeastern University**  
*Master of Science in Project Management*

Boston, MA  
June 2018

**Covenant University**  
*Bachelor in Civil Engineering*

Ogun State, Nigeria  
May 2016

---

## EXPERIENCE

**Harvard University**  
*Library Geospatial Analyst*

Cambridge, MA  
September 2021 – May 2024

- Developed and maintained knowledge-sharing platforms and databases for academic and policy research, leveraging SQL (Google Big Query, PostgreSQL + PostGIS), R, and Python.
- Co-authored and led GIS analysis on a collaborative report with the United Nations Headquarters, focusing on the environmental and social impacts of artisanal mining in the DRC, shaping global policy dialogue on supply chain sustainability.
- Organized and moderated the 2024 Harvard Climate Leaders Conference, facilitating cross-sector discussions on climate adaptation, knowledge exchange, and innovation in critical mineral supply chains.

**Teaching Assistant: Advanced Budgeting, Financial Management and Operations.**

December 2023 – May 2024

- Facilitated knowledge-sharing workshops and learning activities on GIS applications in municipal budgeting and capital investment, directly engaging public officials and community stakeholders.
- Supported students in creating interactive 3D models and data visualizations for city planning, enhancing stakeholder understanding of complex urban scenarios.

**United Nations Secretariat**  
*Economic Affairs Intern*

New York, NY  
May 2023 – September 2023

- Co-authored a landmark report on scaling African Voluntary Carbon Markets (VCMs), providing actionable insights for mobilizing \$6 billion in private investment toward climate adaptation and mitigation.
- Conducted research and drafted knowledge products on renewable energy projects and climate adaptation, contributing to knowledge dissemination initiatives by the Office of the Special Adviser on Africa.
- Facilitated peer learning workshops and technical reviews on sustainable development strategies, promoting collaboration among African member states and stakeholders.

**Lincoln Institute of Land Policy**  
*Climate Strategies Intern*

Cambridge, MA  
June 2022 – August 2022

- Led the design and delivery of the Institute's first GHG emissions baseline and net-zero strategy, producing policy briefs and case studies for internal and external stakeholders.
- Conducted capacity-building sessions on solar energy and climate resilience using GIS and lidar analysis, enhancing institutional learning and strategic decision-making.

**APD Project Management**  
*Project Manager*

Lagos, Nigeria  
December 2020 – April 2021

- Managed multi-stakeholder knowledge-sharing initiatives for affordable housing projects, incorporating lessons learned into improved environmental compliance processes.
- Implemented agile methodologies to support continuous learning and adaptive project management, resulting in a 10% increase in project efficiency.

**ELALAN Construction**

Lagos, Nigeria

***Assistant Project Engineer***

December 2019 – November 2020

- Supervised site operations for delivering 200+ residential units, ensuring adherence to safety standards and quality benchmarks.
- Established a project documentation system that improved workflow consistency, reducing delays due to missing information by 30%.
- Coordinated cross-functional teams and vendors, driving project milestones and maintaining a 95% on-time delivery rate.

***Vecna Robotics***

Cambridge, MA

***Deployment Project Manager***

October 2018 – March 2019

- Developed user-centric knowledge products and technical documentation for stakeholders on deploying advanced robotics systems, supporting evidence-based decision-making.
- Led cross-functional collaboration on knowledge-sharing initiatives that improved operational efficiency by 25%.

***Accord Engineering Limited***

Lagos, Nigeria

***Project Manager***

January 2015 - August 2018

- Led the deployment of 500+ telecommunications towers across Nigeria and West Africa, increasing network coverage by 20% and connecting over 500,000 new users.
- Managed multi-country infrastructure projects with \$25M+ budgets, achieving a 15% reduction in deployment costs through data-driven site selection and optimized logistics.
- Negotiated regulatory approvals and spectrum licenses across five countries, enabling seamless project initiation and compliance.

---

**SKILLS:**

- Knowledge Management Systems
- Climate Adaptation & Resilience
- Stakeholder Engagement & Facilitation
- Results-Based Monitoring & Evaluation
- Data Analysis (Python, R, SQL)
- GIS & Spatial Analysis (ArcGIS, QGIS, Lidar)
- Content Development: Case Studies, Policy Briefs, Reports
- Event Planning & Facilitation (Workshops, Conferences, Webinars)

---

**AWARDS:**

- 2024 Harvard Student of the Year by the Environmental Systems Research Institute (Esri)
- 2024 Esri Innovation Prize Winner
- 2024 Harvard University Award for Outstanding Leadership in Urban Planning
- 2024 Young Leader, Global Leadership Challenge by the University of Oxford and St. Gallen
- 2023 Ambassador Juster Fellowship at the United Nations Secretariat
- 2021 Harvard University President's Scholarship
- 2019 Lagos State Governor Merit Award.
